While the company will obviously be touting its new features and improvements, it is in the very early stages of development. However, Microsoft has already revealed that the update will be available as an automatic update for existing Windows 10 users. While the feature set for the Creators Update is still unclear, one thing is certain: user experience will not be neglected. This user interface follows several core concepts, such as a flat and minimalistic look and feel, a focus on flexibility and ease of use, and also a focus on accessibility and consistency with all your devices. The user interface follows a visual design system that is based on a number of core principles of good design
