Its user interface is very minimalistic, with no dialog boxes, menus or bars as in typical software applications. EasyBannersPro allows you to preview your banner quickly, but you can also change the settings yourself and generate images at any time. The application is multi-language, but as usual with most programs of this kind, it is English only. The main window contains controls for changing the settings, previewing the generated image and other features. You can choose between Standard, Wide and Square as a size for your banner and make changes to text, position, placement and color for the text. You can access the advanced settings by clicking on the Advanced tab to adjust the animations, text positions, titles, backgrounds, borders and layout options. In conclusion, EasyBannersPro allows you to create animated banners in a quick and easy manner, but you should be aware that the program is relatively expensive when compared to similar software.
