Easily recover lost Outlook email passwords PST Password Recovery is a useful utility designed to allow you to easily recover lost Outlook email passwords. The application is made in a self-sufficient way, and it doesn't require additional programs to run. You just need to launch this utility and choose the type of encrypted PST files you want to recover. After that, just specify the email address and the Microsoft account in which you stored your emails, and you are ready to go. Simple interface, PST Password Recovery doesn't have a complex interface, and it has a simple and clear one. The program is equipped with a small toolbar where the buttons and toolbars can be easily activated. It has two main windows, and the left one displays a list of the contents of the selected PST file. The toolbar at the top of the main window contains buttons for entering the password, for viewing the entire file and for copying the file information to the clipboard. The main window is easy to navigate and contains all the information about the current folder, including the date and time the file was created, the size, the original email address and the password. The messages inside the files are listed in a row, and you can sort them according to the email address or the date of creation. If the PST file contains both the original email address and the password, you can view them together as a single line. Copying the password to the clipboard, To copy the password to the clipboard is an efficient way to store sensitive information since you just have to paste it into a text document where you can safely store this kind of information. The application supports this operation since it gives you access to the entire file path, name, date, size, password and email address that you can easily copy to the clipboard. Free version of the application, The application is distributed in a free version that contains the most common functions and that allows you to recover only one encrypted Outlook file per Microsoft account. Moreover, the license key that allows you to activate the full version of the application is limited and is given for a limited period of time. The license key can be purchased in the application itself by paying with a credit card through a secure system. To purchase a license key, you just need to type the email address that you use to log in the Outlook account, and the application will display the number of the license key that you need. You can purchase a new license
