I am reading a file from a partition on a SSD. Does FileStream.Seek\(\) work with the SSD drives? I know that when I mount the disk to a running system it does work, but my question is about when a file is opened. A: Yes, the seek method will work on the SSD. It is more likely to be slow, though, due to the fact that the data has to be physically moved to a different position on the drive, compared to reading from a file on a drive with spinning media. Q: MongoDB \\$match with multiple field I have a collection with this structure: { \\_id: "1234", name: "Romer", last\\_name: "D", adress: "W33rd St 33", country: "U.S", age: "34", gender: "F", } I would like](#)

Controls: Keyboard macros are one of the simplest and most flexible features of Visual Basic for Applications. With the use of keyboard macros you can make your work easier, and save time. By creating and saving your own keyboard macros, you can assign them to any combination of keys. Keymacro contains two versions of keys: a standard key and an enhanced version which can be used when creating a key for a special task. Why should you download Keymacro? - Create your own macros - Automatically send the macros to the TextPad - Change the keyboard layout. Keymacro is not just a keyboard editor, but also a text editor, allowing you to create, edit, and test macros quickly. Keymacro does not support all of the special keys of a keyboard. For example: the special keys like Alt+\*, Ctrl+\*, Shift+\*,... Keymacro has a built-in TextPad viewer. For other viewers see the downloads section. Keymacro is for visual basic.
