Convert texts, PDF document, emails, speech into PDF format. All text files will be converted into PDF document very fast. All formats of PDF document will convert into PDF document automatically. TipCase Text To PDF Converter is a software tool made to generate PDF documents from plain text files. It gives you the possibility to set PD metadata and configure some page settings. Simple installer and GUI The program gets installed quickly and effortlessly, since there are no special settings, required software products, or third-party components bundled with the setup file. By the look of its interface, the utility takes a straightforward approach toward the whole conversion operation. It has a single window with a simple design and tidy layout, which shows all options put at your disposal, so you can figure out what you can do. Set PDF metadata and rotate pages After loading a plain text document with the help of the file browser, you can indicate the output directory and name of the new PDF item, as well as set the author name, creator, keywords, subject and title. When it comes to the PDF pages, they can be rotated by 90, 180 or 270 degrees to the right. Additionally, it's possible to set the preferred font size (ranging from 8pt to 20pt), page size (8.5" x 11", 8.5" x 14", 14" x 11") and font type (Courier, Arial, Times New Roman). The conversion task begins with one click and doesn't take long, after which TipCase Text To PDF Converter offers to open the new document with your default PDF viewer to inspect results. Evaluation and conclusion Unfortunately, it doesn't support batch processing, so you can convert only one file at a time. It doesn't support other important features too, such as PDF previews or password protection. On the other hand, it converted files rapidly in our testing while remaining light on system resources usage. TipCase Text To PDF Converter can be seamlessly handled by anyone and it's free for non-commercial use.
