how to win bts player is connected though mobile download-zip. i downloaded a sim card now its connecting to mobile wireless network yet I.Q: how to pass multiple instance of listbox to a procedure? I am having trouble passing multiple instance of list box to my procedure. The procedure takes list box 1 and list box 3. This is what I am doing: procedure form1\_click(Sender: TObject); var listbox1, listbox2, listbox3: Tlistbox; var text1, text2, text3: string; begin text1:= listbox1.text; text2:= listbox2.text; text3:= listbox3.text; procedure getInfo(listbox1, listbox2, listbox3); listbox1:= listbox1; listbox2:= listbox2; listbox3:= listbox3; end; But it gives me this error: [Error] Unit1.pas(35): E2003 Undeclared identifier: 'listbox1' A: You don't need to set the variable, just call the listbox's name. Q: How to get the full size of image in C# I want to get the full size of the image, example : Image image = Image.FromFile(txtFile.Text); Image myImage = Image.FromFile(mthImgFld.Value); I have two images. now i want to know the width and height of each image A: You should use the Bitmap.Size property or the Image.Size property. Tennessee State Route 516 State Route 516 (SR 516) is a state highway in Rutherford County, Tennessee, in the United States. It serves as a bypass around Murfreesboro. It begins at an intersection with US 43/SR 67 (Chattanooga Highway) northwest of the downtown area. It runs east through a mix of farmland and developed areas and has an interchange with Interstate 69 (I-69), and has a junction with SR 56 (South Federal Street). Route description SR 516 begins in a rural part of Rutherford County at an intersection
