Logspire was born with the idea of providing users with a simple, yet versatile, log viewer. The concept was intended to allow users to quickly and efficiently view log files, without any learning curve to deal with. The browser-based interface was specifically designed to make working with files a breeze, with many options available to the user. Logspire Features: We have tried this newly released app and are happy to report that it provides a thorough and simple log viewer with a strong focus on simplicity and efficiency. On top of that, the app offers several other handy features, such as the capability to easily sort and filter log files, along with the option of exporting them to PDF files. What's New In Logspire?

Logspire is an open source, free log viewer and analyzer for Windows. It captures and details all of the messages and events generated by any Windows application in order to learn what happens to your system. It logs all of the information to a database for analytics and system monitoring. Using a combination of technical details, system information and heuristics based on specific application logs, Logspire can quickly identify the most important events in logs. Familiar Windows log formats are supported, including the widely used, text-only format, event log files, as well as new formats like Java and ELMAH logs. Privacy, security and performance are the core aspects of this tool, which can be accessed and monitored from any computer, including phones, tablets, and other devices. The core of the tool is a free, open source web service that can be deployed as a Docker container to run in your cloud or on-premise in a few minutes. What's New New default logo New logo for macOS and Linux distributions Next version: Logspire will not only be available for Windows but also for macOS and Linux in the future. If you're looking for a simple tool for viewing and analyzing log files on Windows, we'd definitely recommend you take a look at Logspire, a free tool available for download at its official website.
