Episode 13: Telepathic Piranha Streaming. Welcome to another Special Reprise episode of that sort that the network puts out just before the mid-season mark. It's a quick way to jump ahead in the series while adding a bit of intrigue. This time around, we find out that the telepathic laser from the last episode is being used to lure the telepathic mammal called P.E.P. The combined powers of the human and beast create a telepathic wormhole that leads to Wonderland, where the portal can be explored. The story then centres on the efforts of the Spectrum and their use of the portal in order to track down The Man in the high-tech suit. While the setup is intriguing, so is the acting as we see a parade of characters from the Eureka universe (and a few not-so-universes). Chi McBride as Amy John M. Jackson as Caesar Peter Stormare as Dr. Jernigan Sam Trammell as Henry Deacon Paxton Whitehead as Adam Maggie Grace as Dr. Sophie Foster The episode is just over 2 minutes long, but it packs quite a ton of ideas and remains entertaining throughout. While he attempts to decipher the meaning behind the mysterious star, the rest of the Spectrum attempts to stop the telepathic diamond-shooting star, the telepathic lion and the telepathic screech owl. What follows is a weird sci-fi adventure with some classic characters. An argument about rocket ship technology leads to a poignant ending that hopefully foreshadows what we can expect in the upcoming season. We can all get a glimpse of the man behind the curtain in this episode, when The Man (Michael Ansell) is chasing Jack Carter in a high-tech suit. The following few minutes show us how he might have been wearing the suit from the start. It's a blast from the past episode but with a
