The results from the tests are posted on the website, which is nice. A Google User Good program, especially if you have child I have been using this program for some time and love it. Its extremely easy to use and is almost like a touch screen (which I love with my kids, its much easier then a keyboard). The kids love playing the games and have actually put me to shame. Thanks for a great program! A Google User Very good I have found this program a great way to keep my son's spelling skills current. The videos are a bonus and the scoring is encouraging.
