October 8, 2017 - For any serious submarine enthusiast, this is a game to be reckoned with. System requirements: Pentium III 1 GHz, 512 MB RAM, Win XP. Download link. ----- Lossoz Running a motion soundtrack for a submarine game on the PC. I've played several years of submarine games on my PC and this is the best game I have ever played. The soundtrack is good but I'm not a fan of the voice acting. Absolutely amazing soundtrack, and so much more than a soundboard. The soundtrack is really good, and the music of this game is not the most beautiful music I have ever heard. Lossoz
