Schacht is a fast-paced 3D platformer set in a science fiction interstellar battle zone. In the highly competitive gameplay you can run against yourself, your friends and against strangers from all over the world. Players have to complete very challenging tracks as fast as possible, therefore the character has special abilities to overcome different types of obstacles like force fields, deadly platforms, slides or enormous gaps in outer space. Players can choose from over 4 billion different tracks, based on several hundred different parcour elements, to master. Let your friends grow desperate while they try to follow your ghost in the asynchronous multiplayer! The best run of each player is captured and saved as a so called ghost which can then be activated by others to compare themselves with. Additionally, you can test your friendships by challenging your friends directly in the local Splitscreen multiplayer mode. Find out who is the fastest, set new highscores, and become number one! - Daily, Weekly and Monthly Challenges - Highscore System - Splitscreen local multiplayer (up to 4 players) - Asynchronous multiplayer / Ghost System - Character Accessory System From the creators of 'Doom' and 'Quake' comes a new Multiplayer first-person shooter! JOIN THE MULTIPLAYER LIVESTREAM! Don't miss the #Schacht livestream! Visit our official website Join our Discord Server Follow Schacht Run and jump your way through a multitude of obstacle courses in the challenging 2D platformer "IGOR: The Resurrection". Play through 50 thrilling levels full of challenging platforming puzzles, fun powerups and hazardous pitfalls. Wager your skill by attempting to take on the world record for fastest time through each level. Use powerful weapons and set off traps as you race your way through a variety of different environments in this classic 2D platformer! IGOR: The Resurrection is a classic 2D platformer designed to be enjoyed by all types of gamers. AVAILABLE ON: - iOS(iPhone, iPad, iPod Touch) - GooglePlay(Android) ===== Install the game to your device and take the first step: i. Download and Open the game app.ii. Tap the "View" button on the main menu.iii. Look at the "Options" screen.iv. Tap the "Options" button.v. Tap the "Settings" button.vi. Tap the "Enterprise Mode" button.vii. Tap the "OK" button.viii. Then tap the "Start" button.ix. The game will start.===== \*Note: Game requires 3.2 GB of free space on the device.\* How to Install: [i. Download the iOS version of this game and the iOS app EXE from the GooglePlay store.] [ii. Install the iOS app EXE to your device by transferring the file to your device using a cable.] [iii. Open the app on your iOS device and search for "TAISHO x ALICE episode 2" to open the game.] About TRIAGE INC. "A Japanese Visual-Novel Production Company" Trigate Inc. is a Japanese visual-novel production company. We specialize in interactive visual novels and visual novels produced in the overseas markets such as North America and Europe. We've also developed "studio projects" in which we aim to produce high-quality visual novels in addition to the interactive visual novels we already produce. As a result, we've produced visual novels with different settings and characters, such as a VR visual novel, a visual novel for a smartwatch, and a visual novel for a smartphone app. We'd love to see your feedbacks and comments at [trigate.net/discussion](http://trigate.net/discussion) or [trigate.jp](http://trigate.jp). If you are interested in contacting us, please do so at [trigate.net/about](http://trigate.net/about).Disclaimer: The official TRIAGE Inc. website

**What's new in Android Hunter A:**

#475 Leopold del Grande & Marten In recent years, the founder of the Neue Avantgarde, Kurt Weill, began to work for the Deutsches Theater in Berlin, where he became associated with composer Hanns Eisler and was involved in the composing of experimental music. In 1931, it was at the invitation of Kurt Weill to perform his song cycle 'Feuersnot' at Baden-Baden with the pianist Ginette Neveu. This now legendary concert -- propagated by Peter Rose in his book "The Theatre of Hanns Eisler" -- is still highly acclaimed. According to Rose it stands in the tradition of Johann Sebastian Bach. In the foreword of this collection an interesting line of philosophic writing is quoted from Hans Heim: 'Almost nothing comes into the mind of man without having entered it before as a symbol.' This explains the origin of those elements which are so indifferent to time and to time's grasp: Philosophy, the memories of all our experiences, dreams, the imaginary world of play. Things flow through the entire complexity of the brain, and even countless days later they flow around in it as though they were to be found in it and present themselves in the mental as in the physical world, and it is even easier to recognise them. If a deep and heightened sense of life is so obviously important in music, what of Dance Dance Dance? For this dance, the choreography is closely linked to the rhythmic and thematic continuity of the song cycle. In Dance of Death, choreographer Rudolf von Laban and stage artist Kurt Broderon approached the study of rhythm, feeling for the movement of the body, as he had done previously for the dance Gastein or 9 Horologues. Rudolf von Laban also turned to the theories of Wilhelm Reich. In particular, he was convinced that 'fate could be changed by the state of the dance.' Research into the dance of death first began in Germany during the Thirties, when the German piano society was well established. Rudolf von Laban, Kurt Kaiser (Kurt Broderon) and Dietrich Windeck have therefore been taken into account here. A note on the material: this collection contains more than 500 facsimiles. Facsimiles are available in various sizes, with or without commentary. Please click on an image below to view a larger version. LEOPOLD DEL
