AutoCAD 2010 AutoCAD 2010 is one of the top-selling CAD (computer aided design) packages in the world. Since its acquisition by Autodesk in 2009, it has been advancing steadily in terms of capabilities and performance and the latest release, AutoCAD 2010 - Premium Edition, addresses many of the user's requests. New major features The new AutoCAD 2010 - Premium Edition contains new features that address the needs of most users and provide functionality such as feature-based AutoCAD 3D modeling for the first time. New features include: Structure drawing A 3D model of the drawing is automatically created based on the structure of the drawing. A structure is the logical connection between elements, such as a wall, column, beam, or other geometric forms. It includes geometric properties such as height, length,

width, and volume. You can use a feature structure to automatically generate a 3D model that displays buildings, bridges, or other geometric forms that appear in your drawings. The software then automatically creates a 3D model. A feature structure is a model with geometric b7e8fdf5c8
