Home to monsters, traps, and maybe even some demons… You know, the usual. Monsters have always been an integral part of any gaming experience. So as a game, Dungeon of Zolthan looks to recreate that for mobile. In the attempt to give you a better gaming experience, an in-game hint system is available. Don't worry, the hint system isn't your dad in the living room telling you to ''make a good effort''. The hint system in Dungeon of Zolthan is unobtrusive and discrete. When you need a hint, simply tap the hint system icon that appears in the bottom left of the screen. You'll get a hint that pops up on the bottom right. Not only does the hint system work, but it works well. At the end of each room in the dungeon, there will be a puzzle that you have to solve to move forward. Each puzzle can be solved in a variety of ways. However, if you get stuck there is no shame in tapping the hint system and receiving a helping hand. What's new in Dungeon Of Zolthan:

: Breakneck Escape There's no place in the Elven Peak to eke out a living for ordinary folk. At least, not anywhere in the civilized areas. That's why an ugly dwarf and his goblin family decided that they would prefer to go deep underground. There, they could live outside the law, even if there was money to be had there, too. To them, being located beneath the peaks was merely a perk. Your situation: You're a fighting dwarf who hears rumors about the stone mountains. There seem to be a fair number of "heavies" working in the mines, and there are stories of "strongnss", "serpents", "zombies", "bat demons", and worse. They want to go out and explore… or, if you run into trouble and need help, then it's time to save the day… You're on a journey into the mountains. It's good enough. Let the adventure begin! Surprise: Zolthan is a very active location in my game. With every new adventure there are surprises: new locations, NPCs, skills, and revelations that befuddle the players while making their own lives a little more interesting. Zolthan fell victim to an attack from the Plague of Naggaroth, a deadly monster that has held this land at bay for years. But now it's active again and spreading its evil to the lands surrounding its epicenter. Other creatures of darkness, once thought to be mythical, are pursuing worshippers of Nerull, leader of the underworld. Luckily for you, your party is a bit better prepared. They brought a contingent of mining dwarves and a number of dangerous or exotic weapons. They did not expect the self-appointed leaders of Zolthan to ask them for help, however. They expected slavish followers of Nerull to chant along with them, wielding arms that Nerull had given them. Instead, they found a group that seemed to have been

out of prison for some time or, by the end of the first day, have never been out of a dungeon. They knew they were in the right place; their guide and steward made that clear. Their Guide, a blind gnome known only as "the Blind Devil" for his penchant for contrition that precludes
