**More background**

The background of the game is varied and turbulent. The Elven Empire was overtaken by the ogres of the west, and the Nine Kingdoms the north seceded from the Empire. The Elves have committed the sin of “tainting the purity of blood” to save the world, and as a result were subjugated for hundreds of years. The people were forced to live in warrens and protect their lives by hunting goblins, and at the same time they were forced to live in isolation. The Elves decided to rise one more time, and subjugated the ogres and the orcs of the west to get them for the sake of achieving their true purpose. It was only because of this great struggle that the World Tree was handed over to humankind.

Now the Elven Empire, which calls the Nine Kingdoms to the back, has been revived. The rebellion of the Nine Kingdoms is on the rise. Their path is winding into a climax that will shake the world. You, and a few other warriors who rallied for you, the small, weak and tattered branch of the Elven branch with their above-average intelligence. Looking at your roots and going on, you ascend into a powerful beast, the strongest warrior of the Nine Kingdoms, “The Tarnished Dragon”.
