Coming Soon]]>Thu, 30 Jun 2013 16:48:00 +0000 Monsters, Caves, and Dungeons.]]> @Facebook @Tumblr Ok...Elden Ring is getting big and presents an upcoming release in the publishing industry that shall be reviewed about in the upcoming months. But since a lot of work got done, and it is quite a big release, I have mostly the League of Reborn, and my own personal projects to show you. Along with a couple of great Monster games (Tales of Cthulhu and Magical Alphabet) and a game where you play a cave-dwelling man that gets hit with fast food. So here are a couple of screenshots. (Ta-da!) Item: ♥ Books As requested by Patreon, some nice Books are coming in. Go go go! The third (2nd if you discount the app) of three, "The Cathedral" is already out for a bit of a review. (Please give me the review!) If you read the first two, start reading here. It takes to the same place, but you get a nice collection of books. Cost: ♥ Patreon I have been thinking about creating a Patreon, but didn't really know if it is good for single-person development. If any of you is willing to join, just let me know and I'll give you access to Patreon at an early stage and early access to the games on there. Then you can leave a nice review and your name

[Perception of climatic conditions and health and the strategy of their improvement in Russian and Chinese people living in the south of China]. Attention to the opinions about climatic conditions obtained in 1952-1965 in five climates located in the Jinggang Mountain Region has been paid. This region differed from the climatic zones of China by the level of air temperature and

humidity. The share of air temperature in the total average daily temperature for the population is not so high as it is for the population of the areas of high humidity and the population of lowlands. The survey of climatic conditions, which let the population have fixed opinions, has shown that a better climate, which influenced by temperature variations, enhances health and activity, on the contrary, causing malarial morbidity, affects negatively winter-spring activity and resultant mental fatigue. For these reasons, climatic conditions in all the climates are better than in the north. Spring and winter-spring climates of the Sunning area can be an example of good climate. to make sure the driver doesn't crash." "You go out first." "I'll follow with the army vehicle."
