Apple has released the fifth beta of iOS 10.3.3 for developers. iOS 10.3.3 is available as an over-the-air update or through the Apple Developer Center. Along with the update comes improvements to the Messages app, including the addition of the private conversation tab. Messages can also now sync to iCloud without needing to be connected to Wi-Fi. Apple has also updated the iOS App Store to include an improved search feature and more prominent recommendations. These changes are currently available on iOS 10.3.2 and the fourth beta of iOS 10.3.3. iOS 10.3.3 will also improve Maps navigation, as mentioned by Apple's release notes. iOS 10.3.3 is available for the iPhone 4s and iPhone 5s, iPhone 6 and iPhone 6 Plus, iPhone 6s and iPhone 6s Plus, iPad Air, iPad Air 2, iPad Mini 3 and iPad Mini 4.Q: Selecting elements by ID with requests I'm working on a little project where the goal is to scrape data from a website that doesn't want to give direct access to its data. Part of this process is to use a scraping tool to gather this information which then is downloaded. I've tried using Selenium and requests, but I have some problems with both. The first one works when the elements that I want to scrape have id's, but it can't find the elements when it doesn't have an ID. The second one Occ13bf012
