[On June 30, the U.S. Supreme Court will hear a case out of Texas, Whole Woman’s Health v. Hellerstedt, that presents a fundamental question about abortion law in the United States: Do laws regulating abortion clinics in Texas impose an “undue burden” on women’s access to the procedure? The Texas law at issue requires abortion facilities to meet all the same requirements, including licensing and inspections, as facilities that perform other surgical and obstetric procedures. few days to accomplish — on the grounds that it is a “partial-birth abortion.” In a separate case, the Fifth Circuit Court of Appeals upheld a separate Texas regulation of abortion clinics, again finding that such a law, if upheld, would impose an “undue burden” on women. The appellate court, whose full opinion can be read here, stated that the “regulations that require doctors to first counsel women and to require outpatient abortion facilities to meet the same standards as other outpatient surgical facilities” impose a “significant obstacle to women’s access to abortion” that cannot be justified by health, safety, or life concerns. The Supreme Court has never directly addressed the issue of whether any law regulating abortion clinics imposes an “undue burden” on women’s access to abortion. The answer to the question is not simple. Restrictive laws targeting abortion providers rarely cause abortion to disappear. They frequently simply prevent safe and legal abortion. Restrictions on access to abortion can make abortion harder, or impossible, to obtain. To become pregnant, a woman must be fertilized. While she is pregnant, she
