Speaktoit Assistant For Windows 8 Download [Mac/Win]

Speaktoit Assistant for Windows 8 is a small software application suitable for Windows 8 users. It helps them place a virtual assistant on the desktop. They can ask all sorts of questions using the microphone or type them via their keyboard. Simple looks The utility reveals the avatar of the virtual assistant and automatically show the questions and answers directly into the main panel. Smart buttons are implemented in the GUI for helping you turn on or off the sound and enable the keyboard or microphone. What's more, you can check out some examples with basic dialog topics and general ideas in case you do not know where to get started. Key features The application is able to carry out all sorts of tasks. You can perform searches on Google, launch programs and access various online platforms, such as Google, Facebook, Twitter, Foursquare, and Evernote. What's more, the virtual assistant helps you get maps, search for news and images, check out weather reports, perform conversions related to currency and measurements, and send emails. You are allowed to search for music (certain band or artist), get stock information, look for items on Amazon, play music and videos, check out the current time, create notes, set up events via your Google Calendar, open websites, perform word /sentence translations, as well as carry out mathematical operations. Speaktoit Assistant for Windows 8 delivers answers to your questions very quickly. It may not be able to provide a solution to all your questions but it is fun working with it. It eats up a moderate amount of memory resources. Configuration settings The appearance of the virtual assistant is fully customizable. This means you can make changes to the face, skin, hair, clothes, and other characteristics. Bottom line All things considered, Speaktoit Assistant for Windows 8 is capable of performing lots of tasks very quickly. It's intuitive so it can be mastered by beginners and professionals alike. Speaktoit Assistant for Windows 8 Description: Speaktoit Assistant for Windows 8 is a small software application suitable for Windows 8 users. It helps them place a virtual assistant on the desktop.
