Medium Rare was designed to be a quick, fun game that you can play casually or in a multiplayer party with your friends. Medium Rare is truly unique because it makes you feel like a dragon (cuteness is important), and teaches you dragon-like skills such as breathing fire & eating chicken legs. "Getting a dragon down is an art form. I feel proud of myself when I get one down, and I do feel that I have a bit of a knack for putting them in the oven." -Nick Baker, Big Brain Academy "I love the game. It's very funny. I find it very easily accessible to get started with. It's very casual, but still a bit challenging. I also love the art. It's cute and it's fun to play." -Sebastien Price, University of Texas at Austin "I find Medium Rare to be a fun game. It's a mixture of action & strategy; a fun, casual yet still challenging game. I enjoy the songs & soundtrack that help set the scene. I can also enjoy the fast pace of playing the game. When not getting too caught up in trying to eat the most chicken legs, I can also enjoy playing while I'm having coffee, or even work! :)" -Taylor Brewer, Boise State University

Please describe your general World of Tanks experience? Q: Hello, I have played World of Tanks for over 2 years now. The first thing I liked was the sense of tank destruction. After a few months, I started to enjoy just killing people and preventing them from killing me. However, I enjoyed dashing around for the highest performance, but I obviously need to master more things from the controls and driving. In the last two years I have learned how to drive, I was inspired by three things : I am a teenager and I was 11. I like action, and I can't be convinced otherwise. I wanted to play a genuine WWII German vehicle. I started playing in the '13 season, but I wish to play in a patyling season. I have played in 5 battles. I won with 4 and lost with 1. In these 5 battles I have never completed a battle with a team - I could never look an arrow in the eye. I have been playing some time and I know what I want to improve : The general driving, it is OK and I don't have a lot to improve here. I know that, but I lack those skills and that power to use them. The Aiming system, it's OK but I am not satisfied with the tuning of it. But I don't have any real experience on Aiming. Fire rates. They are OK, but I have done so much that I don't have any room for improvement anymore. Reload times. I know they are pretty bad, but I can't
