The first version, AutoCAD 2000, was released in the summer of 1999. AutoCAD was built in Visual Basic and is a Microsoft Windows program. At its inception, AutoCAD was available for the PC platform. Later in 2000, the design software was ported to the Mac platform. In 2003, the iPad version of AutoCAD was introduced. AutoCAD 2009 for Windows 32-bit PCs was introduced in 2009. The transition from 32-bit Windows to 64-bit Windows and the continued growth of AutoCAD in the global design community has resulted in a new release of AutoCAD for Windows 32-bit PCs, AutoCAD 2018. Autodesk's AutoCAD 2020 software was released in early 2020. Design Trends in AutoCAD As AutoCAD users have been using it for decades, the design trends in AutoCAD have evolved with the use of the tool. The following is an overview of the design trends in AutoCAD. In the early years of AutoCAD, many engineers and architects used the program to design bridges, buildings, railroads, and any other structure they wanted to build.
