
Duplicate Cleaner Free Free Download [32|64bit] [March-2022]

Duplicate Cleaner Free Crack + [Mac/Win]

Now, the best way to free up space on your computer is to locate the duplicate files. Do you like to find the duplicate files on your PC, then Duplicate Cleaner is the best choice for you. This has many useful features to be familiar with. Duplicate Cleaner is a tool that you can use to locate and delete duplicate files from your system, in order to free up space. Since this is an ad-supported program, you should be careful when installing this tool. Duplicate Cleaner offers to download a third-party component that is not essential to the overall functionality of the application. Clean looks The interface of the program is simple and intuitive. The first thing you can do is add one or more folders to the search path from the tree view (you can also add them manually). Working with filters From this point on, you can initiate the scanning process and refine your search. So, you can include and exclude particular files or extensions, set a minimum and maximum file size, as well as specify file dates. Search process and results But you can also look for files with the same content, name, size, date of creation of modification and, in case of audio tracks, with the same artist, title or album. During the scanning process, you can view the percentage and number of checked files, total duplicate sets found, progress and messages (e.g. scanning files with the same content). Once the search is complete, you can check out scan details revolving around the total number of scanned files, groups and sizes of duplicates, as well as elapsed time. Other handy features to play with In the "Duplicate Files" tab, you can check out the name, path, size, date and time of creation and modification, file type, hash, group, hard links and other details about each file. The original file and its duplicates are delimited by color, so you can easily identify, remove or rename them. In addition, you can preview images, configure file removal (e.g. delete to Recycle Bin, rename files by setting the prefix or suffix) and change other options, such as the colors of the list row backgrounds, as well as import a list of duplicate files from a CSV document, and more. Performance and final thought The program takes up a low-to-moderate amount of system resources and didn't pop up any errors during our tests. It seems that Duplicate Cleaner has stepped up its game since our last review and made some great
