An amazing little device When we mentioned in our last post that the click-a-free-spot camera was coming, we'd heard that it was a little device that would be easy to use and not hassle to get. We heard about it from a friend and immediately went out to buy it online, after looking at the info and pictures on the website.

We ordered it, and were looking forward to a new gadget. What was it? The Spotmatic, it is called. The Spotmatic The Spotmatic is a little device that takes pictures of spots at a distance. When it got here, we were surprised about how small it was. It's about the size of a pack of cards and just a bit thicker. It's a white cylindrical object that is about 5" long, and

---

that's it. On the side is a small button that you push to turn the camera on. Another little button controls the flash of the camera. The small size made it easy to hide in a e79caf774b
