Grand Theft Auto 5 is the fifth major instalment in the Grand Theft Auto series of games. The game was released on 26 September 2013 and is the first Grand Theft Auto game to be developed primarily for the next-generation console, the PlayStation 4. This is the first Grand Theft Auto game to be developed by a publicly traded company. The game was revealed at E3 on 30 June 2013 and was made available for download on 26 August 2013. GTA 5 was released as one version for Microsoft Windows, the PlayStation 3 and Xbox 360, and as a day one digital download edition of the PlayStation 4, and Xbox One. The Windows version of the game is available on both Steam and the Microsoft Windows Store, as well as being made available through several retail chains. Like the Grand Theft Auto IV, Grand Theft Auto V was met with critical acclaim upon release. The game became the fastest-selling game in UK retail history on its release day and was the fastest-selling game in the UK and Ireland on both their debut and the PlayStation 4 and Xbox One. The game also became the fastest-selling game in the world. The game sold 17 million copies within three days of release and within a week had sold almost 23 million copies. The game's popularity has led to a sequel, Grand Theft Auto VI, being announced by Rockstar Games in May 2018, with the game expected to be released on 11 October 2019.The CNN Host Calls Foes Of Illegal Aliens 'Blood Sucking Parasites' — And The Liberals Are Pummeling Him Here we go again — CNN Hosts in America are sore losers. Nothing makes liberals and progressives happy than beating a dead horse, and CNN has a lot of dead horses. They are the television station that will not allow regular conservatives on their programs, and conservatives are allowed to appear during the blabbed off hours of their programming, but they host few regular conservatives on full time and when they do, they are disposed of. CNN Producer James Pavitt did not like when he was ordered to host a town hall meeting. He took to Twitter and described the reaction of liberal audiences to being spoken to without the pretense of liberal talking points as a “smiley, fat suck,” and that is saying a lot. Because the left were not allowed to participate in the CNN town hall event, CNN conducted an event called “town hall from the left”. Producers of course knew it was not going to go well, because when you

UncensoredFighter rated this game 1 out of 5 on 01-29-2015 Not a bad game, just a bad title. It's a short game, but for some reason it made me think this game was much longer. This game was very boring and I guess I've seen a lot of similar games before. Good basic game concept, but like all other games of this type has been done to death. Game "BROTHER WAKE UP" Review: This is a point and click game which looks like it's based on a movie. That's because it was based on a movie "What Lies Beneath" and the story was rewritten by Gameloft. So, you get to control an evil little guy and work on puzzles to find and collect watches and reverse the Watchmaker's spell.
