Battlefield is one of the best selling video games of all time with over 80 million copies sold to date. Back in 2004 the Battlefield franchise was launched. We saw soldiers fighting in the trenches, we watched jets in the air and we witnessed some of the most explosive battles ever witnessed in a video game. This time we are going back to World War 1. World War 1, also known as the Great War, was the largest, bloodiest, and deadliest conflict in human history. It began on August 2, 1914, the archduke Franz Ferdinand of Austria and his wife, Sophie, were shot and killed by Bosnian Serb nationalists in Sarajevo, sparking the First World War. World War 1 lasted 4 years and claimed 20 million lives. Over 700 different weapons were used in WWI. Loadouts are already available for all vehicles. So, if you prefer to use a horse to take out your enemies, feel free, the cavalry will be there to cover your retreat. The Austrian army started the war by fighting German forces in Galicia and Austria. They were defeated by the German army (Second Battle of the Masurian Lakes). Later they fought the Russians, but lost. The Austrians won against the Prussians, but then lost against their allies in Bavaria. German forces (the Kaiser's) entered Russia in late August/early September and continued north. Before they could reach Moscow, the Russians and Imperial German officers had signed the Treaty of Brest-Litovsk which laid the foundation for the creation of the Polish state. The ceasefire was followed by the Treaty of Tilsit in 1807 which fixed the border between Russia and Prussia. Russia was given the key areas of the Baltic Sea and Finland. This was the beginning of the Cold War. As the war continued, the Russian army broke through the German front in the Carpathians and took over the whole of Bukovina. In the spring of 1915, Russian commander in chief, Grand Duke Nicholas, decided to use the Japanese expeditionary force to defeat the Germans in the Japanese Sea. In September, the Japanese landed in Vladivostok and attacked the Trans-Siberian Railroad to Khabarovsk. The Japanese took the German eastern supply lines, and were successful, defeating the German forces and taking over Vladivostok. In the spring of 1916, the Russian army broke through the German front and began to besiege Lemberg. The c9d1549cdd

\* LTM costs on zebrafish colour preference. These two populations of larvae were therefore exposed to a constant strong odor of either \*Gellonela\* spp. BTs (incubated in plastic bags, 5 larvae per bag, [Figure 7](#F7){ref-type="fig"}) or \*Gellonela\* spp. LTM particles (incubated in microcentrifuge tubes, 10 larvae per tube, [Figure 7](#F7){ref-type="fig"}). While the plastic bags strongly distracted fish from the \*Gellonela\* spp. LTM-incubated group, the microcentrifuge tubes favoured larvae's exploration of the \*Gellonela\* spp. LTM-incubated group compared to the control group, as shown by the higher animal activity and food intake. Further analyses determined that \*Gellonela\* sp. LTM did not interfere with larval zebrafish behaviour (data not shown). These results suggest that \*Gellonela\* spp. LTM could provide protection from fish health issues and contamination. ![Olfactory preferences of \*Gellonela\* spp. LTM in larval zebrafish (\*Danio rerio\*): preference index in plastic bags (white bars) and microcentrifuge tubes (black bars) for six different treatments shown in \*(A)\*\* 10 larvae per treatment per bottle. \*(B)\*\* Box plots. Box plots of preference index are presented for larvae exposed to \*Gellonela\* spp. BTs (white boxes) and LTM (black boxes). One outlier from LTM condition was removed and analysed separately (\\* = \*p\* \

Stickman Jetpack is a physics-based endless flying game, in which you will have to fly under dangerous situations without any parachute. It will require you to spend your fuel wisely. Fly slow, fly fast, and hover in a desperate battle against obstacles and enemies. Fellas, you are the Stickman! This time you will try to reach the end of the level. But with some help from your jetpack, you will pass many walls and barriers. And you will have to control your flight carefully and sometimes force an abrupt landing. You will cross various levels, where you need to control the height of take-off and fall. You will have a certain amount of fuel to pass the level. Use your jetpack wisely! On the way there will be various obstacles that can block you and even destroy you. There will be moving blocks, self-guided bombs, laser guns, and much more on your way! So get ready to fly as fast as you can! - Create portals as presented
- Connect 4 and 5 Towers
- Compete for the prize
- Find flowers
- Watch birds
- Do objects
- Review the Find and so on you need to take

Game Pro Tips

- Generally you can end up with 2 or 4 portals at the end of the game. Try to complete the game before the portals decrease. Do the same for the objects.
- The objects level up to 10 by surrounding a flower, which you can only complete once the flower is filled with other objects.
- Prophunt Fields can contain everything from flowers to traps, such as snakes.
- The first portal is for sanity only, do not use it as a portal to plant your own portal.
- Be careful of the branches. They can contain snakes. If you don't want to play with them, simply wait until the snake pops out before planting a portal on the branch. This snake won't bother you, except from blocking your farm to level the objects.
- Don't plant 3 portals on the same level, because they won't belong to you when you clear the portal and re-shoot.
