History AutoCAD is currently available in 19 different editions. AutoCAD LT was first released in 1989, and in 1995 it was superseded by AutoCAD 2000. In 1998, AutoCAD Mechanical was released. In 2006, AutoCAD 2009 and AutoCAD 2010 were released, followed by AutoCAD 2013, AutoCAD 2014, AutoCAD 2016 and AutoCAD LT 2017 in 2007. AutoCAD 2018 was released in 2017. In 2019, AutoCAD 2019 was released. AutoCAD 1999 and the subsequent releases used the Classic look and feel which was superseded in AutoCAD 2016. In AutoCAD 2016, the classic look and feel was replaced with the new look and feel introduced in AutoCAD 2014. For a long time, this new look and feel was actually referred to as "pre-Classic", to differentiate it from the Classic look and feel. It was not until AutoCAD 2016 was released that the new look and feel was officially called "AutoCAD Classic" in an official Autodesk document. AutoCAD LT is the only edition of AutoCAD that does not have the Classic look and feel. AutoCAD LT 2009 introduced a new look and feel, which was actually called "AutoCAD 2009", until AutoCAD 2016 was released, when it was renamed "AutoCAD Classic".
