Por Qué Todo el Mundo Se Perdió (w/ Dannydelion) Description "A political thriller with pop-rock integrity" — The New Yorker In the aftermath of the

assassination of President John F. Kennedy, a former U.S. Senator discovers a plot with global implications. Fearing for his life, he is taken to a secret military installation, where he is given the opportunity to save the world—from President John F. Kennedy's assassin. The author is a New York Times bestselling, international, best-selling writer and producer. It was an incredible surprise for me to come across this one in the bookcase, I had originally avoided it because it was a History book but I was in the mood for something a little bit different and this book delivered. It is the story of Senator Charles Degan who is the true hero of the story. He sets out to find the truth behind the assassination of JFK, as the media have ignored the real killer. With the help of supporters and the support of himself and his wife he sets out on a dangerous journey into the truth. I really enjoyed this book, I have always been a fan of spy novels, political drama and thrillers and this book delivered on all of these. Dannydelion is the

first of two thrilling novels from W.E. Henley.
